

Edit an Existing Airbnb Listings

By Editing an Existing Listing, you are able to update all key data points within your Airbnb listing. This would include:

- Listing Name
- Listing Description
- Room & Guest details
- Price Settings
- Amenities

Below is a sample of what can be edited.

The screenshot displays the 'Airbnb Content Management Tools' interface. On the left is a sidebar with navigation links: Home, Listing Management (Manage Listings, Manage Photos, Create Listing), Map Tools, Pending Reviews, Review State, and Disconnect Host. The main area is titled 'Listing Metadata' and contains the following sections:

- Listing Name:** A text input field containing 'Master Suite Beach Front with Plunge Pool'.
- Listing Desc:** A text input field containing 'Comfortable oceanfront suite with Plunge Pool'.
- Listing Type:** A dropdown menu set to 'Boutique_hotel'.
- Guests Get:** A dropdown menu set to 'private room'.
- Sync Type:** A dropdown menu set to 'all'.
- Rooms & Guests:** Fields for 'Accommodates' (4), 'Bedrooms' (1), and 'Bathrooms' (1). Below these is a 'Beds' field set to 2.
- Pricing Settings:** Fields for 'Guests Included' (2), 'Price per extra guest' (45), 'Security Deposit' (0), 'Linen Fee' (0), 'Cleaning Fee' (0), 'Nightly Resort Fee' (0), and 'Nightly Community Fee' (0). Each of these has a 'Flat' dropdown menu.
- Amenities:** A section with checkboxes for 'Essentials' (checked), 'Air conditioning' (checked), 'Kitchen' (unchecked), and 'Heating' (unchecked). Descriptive text for each amenity is provided below the checkboxes.

Please make sure you click the 'Update' button to complete these updates.
