

Images in Letters

You can enhance your letters with images such as property logo or an exterior image.

Please edit and size the image in an image editor and save as a .jpg, .png, or .gif file before you upload it.

Once an image is inserted into a Letter, you can drag the image to place it where desired in your letter.

Images can be used in conjunction with tables to assist in creating static templates for your letters.

Letters Setup

To add an image to any letter click image icon shown in red below.

Save

This will open the upload window.

Use the Browse button to navigate to the image you want to upload. The image will be saved with numbers. This is to prevent any images from not loading when inside the letter.

After the image has been uploaded, it will appear in your image folder list. Once the image has been uploaded simply choose the image from the **image list** into your letter.

Note each image will be saved as date time stamp. sample: 2024_04_12_114323
