

# Images and Room Type Images

Images communicate the values of your business. Images should be optimized for the Internet – set up with the appropriate file size and dimension. Images straight out of a digital camera are not optimized for the Internet – they are very high resolution for printing. The average image size should be between 15 and 50k.

If you need help, contact support with accurate descriptions of each image. We can then size them for you and upload to your booking system.

To upload an image to the Internet, click 'Browse' and select the image desired from your computer. Then, click 'Submit' or 'Replace' to upload the image.

*\* Tip - If you are replacing an image, often your browser will continue to display the old image even though you have uploaded a new image. Click ctrl + F5 to Refresh your screen.*
