

MyPMS Release - January 25, 2016

Tape Chart Enhancements

- [Group Booking Icons](#) - Assign Color Icons to Group Bookings for easy identification on the Tape Chart
 - [Room Amenity Icons](#) - Display by Room on the Tape Chart.
 - [Booking Flag](#)- Flag a booking based on a Guest type. Make identifying flagged guest bookings easy to see on the Tape Chart.
 - [Date bar repeat](#) - Choose default row display view.
 - New Legend: See Room Type amenities and new muted red color for Unconfirmed Booking color on Tape Chart. See [Tape Chart Enhancements](#)
-

Other features and Enhancements:

- [Minimum Booking Lead Time](#) (hours in advance) - updated to drop down list
 - [New Merge Fields in Letters](#):
 - Accommodation cost
 - Work Phone and Mobile Phone
 - Rate Grid Date and Room Type Only
 - "Home Phone" label changed to "Main Phone" in Booking Data. Can be used for guest look up in new bookings.
 - Changed "Unconfirmed" Booking color to muted red on Tape Chart. See [Legend](#).
 - Booking Log Entries for Letters: Log now displays "Print letter 'Reservation Confirmation' generated - Booking: #" or "Email letter 'Reservation Confirmation' generated - Booking: #". See [Booking Log](#)
-

We are pleased to announce that the following software bugs were fixed in this release:

- Hotel Country merge field %%hotel-country%% is now filling in the country name that is entered in the site details.
- Guest Name Lookups with over 30 similar names now work with a mouse select
- Vacant Room list will now only show "Live" Room Types
- DOB on Booking Data/New Booking Window and Guests page will accept DOB prior to 1940 now
- Drag and drop no longer edits the prior dates booking room number only current day and future
