Booking Engine Template - Calendar

Using an 'Calendar of Availability' as the default 'in template offers a visual calendar option of property have rooms and which do not) and enables Guest:

NOTE: Some customers to choose to avoid this 'Front Page' entirely, and use the [Quick Reservation Feature](#) on their website to present a clear 'call to action' accepting 'Arrival Date' and 'Departure Date' so that, when submitted, the user gets availability results from the Booking Engine for those dates. This approach has been shown to generate more bookings - look at major hotel websites and this is how they implement the Booking Engine. We describe how you can do this in this [Knowledge Base Article](#).

Booking Engine Template 02 and 04 - Hotel Description with Multiple Rate Plan Selection

- **Hotel Description:** The Hotel Description area can be customized by going to **SETUP | SETTINGS | MARKETING AND POLICIES**. There are two fields that can be used to customize the Hotel Description. Together these two fields make up the Hotel Description displayed. For step-by-step instructions on how to edit this information, see [Marketing And Policies](#)
 - The 1st paragraph of the Hotel Description displays the text entered in **Site Description**.
 - The 2nd paragraph of the Hotel Description displays the text entered in **Marketing Message**.
 - **Images:** There are four images displayed on the front page of the Booking Engine. These images are taken from the images you upload to the **SETUP | FEATURES AND IMAGES | IMAGES** area. The four images on the front page are Property, Exterior, Conference and Restaurant. However, images don't have to be of a 'restaurant' or a 'conference' room - these are only the 'placeholder names' we use to place the image *you want*. The image can be of a dog, your favorite interior hallway, an activity, etc - anything you want to reflect your property. For step-by-step instructions on how to add or change images, see [Images](#)
