

MyPMS Release December 22, 2018

Version 3.53

This latest release introduces a major new feature: Digital Document Signing

- **NEW! eSign - Digital Document Signing:** We've integrated Digital Document Signing into the booking process, streamlining check-in for your customers and staff. eSign is fully integrated with your PMS and ready-to-use - at no additional cost to you! Save time, speed up the check-in process, improve record keeping and free up time for your staff by sending - and receiving - digitally signed documents. Getting started is easy! Create and send a Digital Signature Letter right away using our default *Letters* section. [Learn how to use eSign](#)

We are pleased to announce that the following software bugs were fixed in this release:

- Can Overbook in Edit Tab of booking
- Edit Folio Comment and 'Save and Return to Folio'
- Can't Add Booking to Soft Allocation Group Blocks
- Online deposits are not including tax on MyPMS import to folio
